

# Research CRM — Daily Summary

Netherlands Academic & Research Network · Wednesday, 26 August 2026

Research CRM tracks 52 institutions across the Netherlands (14 universities, 13 medical centres, 20 research institutes, 5 NGOs/foundations) and 547 verified contacts (138 high priority). 18 candidate contacts are awaiting review right now. 15 news items are being tracked. 2 of 2 tracked tenders/RFPs are still open. 2 of 7 monitored institutions are confirmed OpenAlex subscribers. Scopus remains active at 13 of 14 tracked NL universities; Clarivate's Web of Science is cancelled or expiring at 5 of them.

### THIS WEEK'S TOP STORY

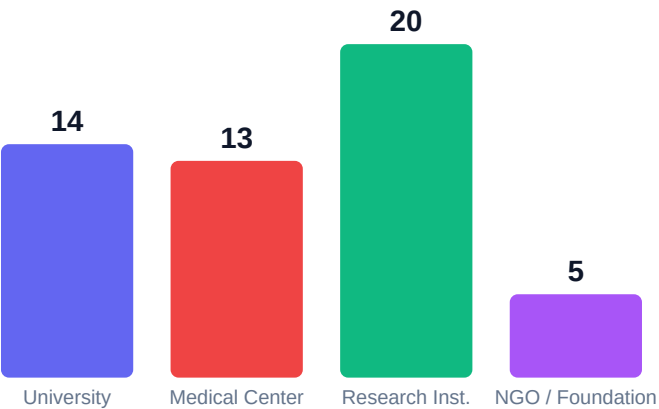

#### Maastricht University cancels Scopus license, invests in OpenAlex instead

A named Dutch institution is dropping Elsevier's own Scopus product for a free open alternative — a direct, quantified competitive loss (cost and declining usage cited explicitly), not just a Clarivate/Web of Science story.

**NETHERLANDS RESEARCH POLICY** 2026-08-22

### Dutch universities drop Web of Science as costs rise and open-science pressure builds

A four-university wave of subscription-database cancellations shows real budget and open-science pressure on paid citation databases generally — the same pressure that led Maastricht to drop Scopus. Notably VU is keeping Scopus while dropping Web of

### Dutch research institutions and Elsevier announce new agreements

This is Elsevier's own core Dutch business relationship — the national Read & Publish and Scopus agreement covering all 66 major NL research organisations — with UNL's own spokesperson flagging budget pressure on renewal, directly relevant against the

**NETHERLANDS RESEARCH POLICY** 2026-08-22

### Dutch research evaluation frameworks shift toward open research information, away from closed bibliometrics

National research-evaluation frameworks moving away from closed, proprietary bibliometric indicators is a structural, multi-year threat to Scopus's role as the trusted metrics source Dutch institutions are evaluated against — the same policy current behind the

### Open Science NL launches 2026-2027 work programme with a dedicated AI and Open Science funding track

A national funding body is putting dedicated money behind 'AI and Open Science' capacity-building — worth watching for what infrastructure and tools it ends up funding, since a prior programme already deployed €60M and this is the successor track.
