

Research CRM — Daily Summary

Netherlands Academic & Research Network · Saturday, 22 August 2026

Research CRM tracks 52 institutions across the Netherlands (14 universities, 13 medical centres, 20 research institutes, 5 NGOs/foundations) and 456 verified contacts (138 high priority). 17 candidate contacts are awaiting review right now. 15 news items are being tracked, 8 new today. 2 of 2 tracked tenders/RFPs are still open. 2 of 6 monitored institutions are confirmed OpenAlex subscribers.

THIS WEEK'S TOP STORY

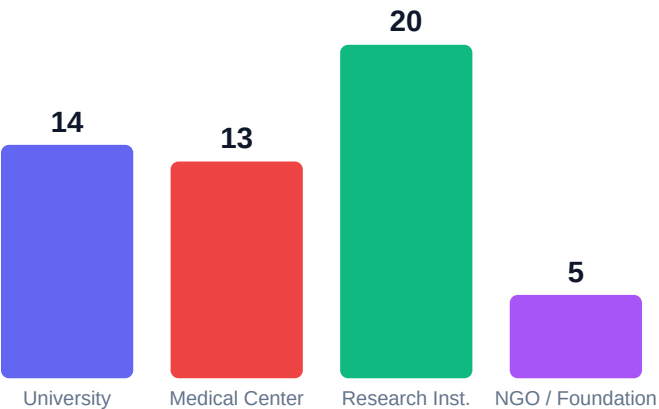

Maastricht University cancels Scopus license, invests in OpenAlex instead

A named Dutch institution is dropping Elsevier's own Scopus product for a free open alternative — a direct, quantified competitive loss (cost and declining usage cited explicitly), not just a Clarivate/Web of Science story.

Dutch universities drop Web of Science as costs rise and open-science pressure builds

A four-university wave of subscription-database cancellations shows real budget and open-science pressure on paid citation databases generally — the same pressure that led Maastricht to drop Scopus. Notably VU is keeping Scopus while dropping Web of

Dutch research institutions and Elsevier announce new agreements

This is Elsevier's own core Dutch business relationship — the national Read & Publish and Scopus agreement covering all 66 major NL research organisations — with UNL's own spokesperson flagging budget pressure on renewal, directly relevant against the

Dutch research evaluation frameworks shift toward open research information, away from closed bibliometrics

National research-evaluation frameworks moving away from closed, proprietary bibliometric indicators is a structural, multi-year threat to Scopus's role as the trusted metrics source Dutch institutions are evaluated against — the same policy current behind the

Open Science NL launches 2026-2027 work programme with a dedicated AI and Open Science funding track

A national funding body is putting dedicated money behind 'AI and Open Science' capacity-building — worth watching for what infrastructure and tools it ends up funding, since a prior programme already deployed €60M and this is the successor track.
